

TABLE 8. Mean fees charged for various contraceptive services, by client's income level, according to agency type, reproductive health focus and receipt of Title X funding

Client's income and service	All agencies	Type of agency†					Reproductive health focus		Title X funding‡	
		Community/migrant health center	Health department	Hospital	Planned Parenthood	Other	Yes	No	Yes	No
75% of poverty										
First visit	\$36 (2–178)	\$23	\$29	\$62***	\$42*	\$32	\$46	\$28**	\$36	\$36
Three-month pill supply	20 (2–75)	17	15	34*	31***	20*	20	19	18	21
Injectable	36 (3–200)	32	24	54***	41***	34**	39	33	29	39*
Implant insertion	321 (3–1,001)	165	132	494***	372***	387***	381	267	283	354
275% of poverty										
First visit	79 (10–360)	77	81	94	76	68**	82	75	80	78
Three-month pill supply	30 (2–133)	32	26	28	43***	34**	31	26*	30	30
Injectable	46 (5–200)	42	45	55	53**	44	49	40***	46	45
Implant insertion	514 (10–1,001)	364*	587	510	484	452	509	523	425	734*

*p<.05. **p<.01. ***p<.001. †Significance levels refer to difference between the specified proportion and the proportion for health departments. ‡Refers to Title X funding of contraceptive services at one or more of an agency's clinic sites. Notes: Numbers in parentheses represent the range of fees reported. Between 66% and 76% of agencies reported charging no fee for providing these services to women at 75% of poverty; 5–12% do not charge women at 275% of poverty. Means are based on those that do charge a fee.
